

## **WELCOME WORDS FROM SENIOR STUDENTS**

### **1- Maxwell Adu-Nsafoa (Ghana)**

This is a start of a tedious routine of sitting down for six hours per day after probably a long period from classroom and the liberty to move around in the offices. Notwithstanding, remember to be focused from the start and things will work good for you. Enjoy yourself in Munich and happy stay.

### **2- Svetlana Gavrilovic (Montenegro)**

Dear New Generation,

I suppose that you are shocked by the German weather. But do not worry. Nothing is like it looks like. Enjoy every moment you will have in the next one and a half year, professionally as well privately because time is running.

Take up the challenge you have just started with!

Good Luck

### **3- Branimir Maicica (Croatia)**

Dear Friends,

I wish you a nice and pleasant stay in this very special part of the world! How? It is quite easy: Help your mates, share your own knowledge and experience, Be open-minded, tollerant and honest. You will get the biggest award in this world: Happiness...

### **4- Nelson Namikat Duut (Ghana)**

Dear Colleagues,

You are warmly welcomed to the beautiful city of Munich and to the Technical University of Munich, which is a centre of excellence for learning. So therefore you are previledged to be a part of this enviable society of academics. It is unfortunate you are arriving at a time when the weather is begining to be unfriendly. But with the able direction of our indefatigable Lecturers at our well-known centre for land management and land tenure you would soon work your selves into the system and things would become normal.

I would like to wish you all the best in your studies and hope that we will all be meeting soon to socialise together. Once again I say welcome on board.

### **5- Jing Wang (China)**

This is a good chance to broaden your horizon, to improve your competence and to make new friends, please enjoy it!
